

# South African Tours

If you have always wondered what it would be like to hear the crunch of a lions jaw as it munches on its latest catch or been impressed by the sheer size of the African plains then this should be your year to take a trip to Africa. It's a continent with diverse cultures, fascinating history and animal encounters like no other. Direct flights from Australia mean it's easy to get there and with so much competition for airfares its better value than it has been for many years.

Many say Africa is a destination that changes you. You come back from a trip in awe of nature and all that she offers and you get an understanding of a different way of life that helps you fully appreciate your own. The beauty and size of the country has to be seen to be believed and the first time you get to smell an elephant's breathe will stay with you forever.

Quadrant Travel & Journeys has developed a number of packages travelling to Africa in 2011. Whether you want a safari on the Savannah, or are volunteering in Kenya or planning to experience the luxury of the African playground, Sun City, then Quadrant Travel and Journeys are sure to have something to suit your style and budget.
